

Excite Engage Empower

We are Synergy Learning and we develop award-winning online learning platforms that Excite, Engage and Empower learners.

Let's create learning with impact

That's what we've been doing since 2005. Learning technologies have evolved considerably in that time and so have we. We're always moving forward with the latest developments in e-learning.

You shouldn't have to bend your organisation to fit the technology. That's why we create learning platforms that do exactly what you need them to do. We listen to what you want to achieve, then put the technology in place to deliver that using our e-learning expertise and leading open source learning platforms, like Moodle and Totara.

Let's work together to create a learning management system that empowers your organisation to achieve its goals.

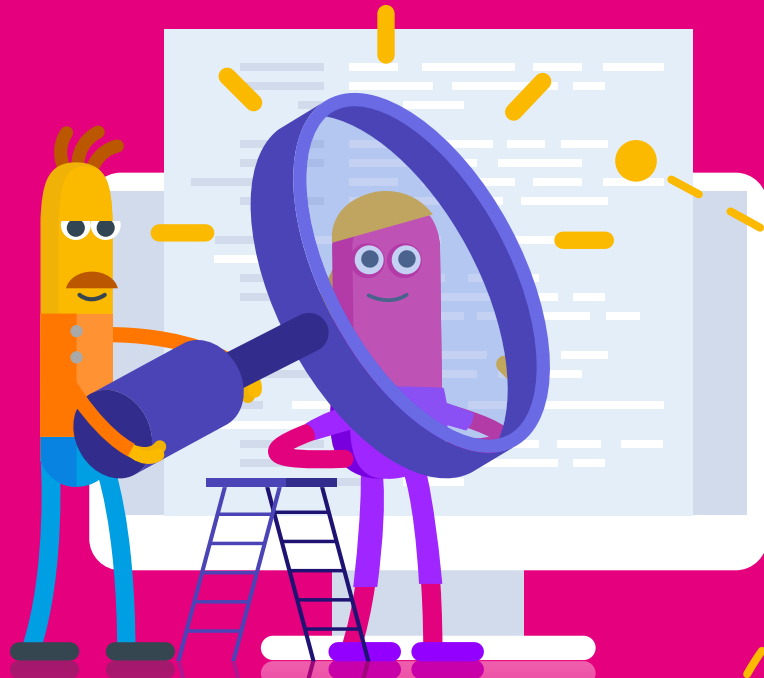

PLATINUM
ALLIANCE PARTNER

PREMIUM CERTIFIED SERVICES PROVIDER

Make us your e-learning pathfinders

We want to work alongside you to take your online learning in the right direction for your organisation's needs. Here are a few reasons to partner with us for that journey.

Vast e-learning expertise

We've delivered more than 1,100 learning sites, which have been used by more than 2 million learners. We'll bring all that know-how to your project.

Moodle and Totara geeks

We're award-winning Moodle Premium Partners and Platinum Totara Partners. We know both platforms inside-out.

Designing with your learners in mind

We deliver intuitive user journeys that simplify and improve the learning experience. When you work with us, open source doesn't mean out-of-the-box.

Reliable communication

You'll find us easy to get hold of for a chat throughout your project and beyond.

Support when you need it

We provide an end-to-end service with ongoing technical support, so your platform continues to meet changing requirements and evolving technology.

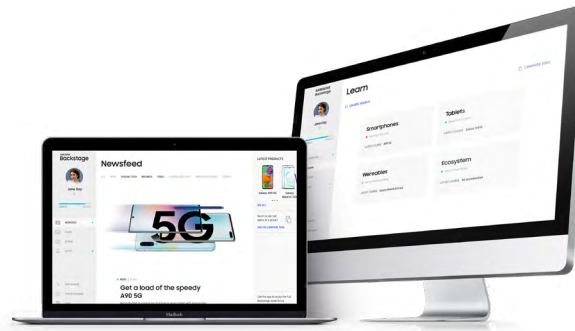

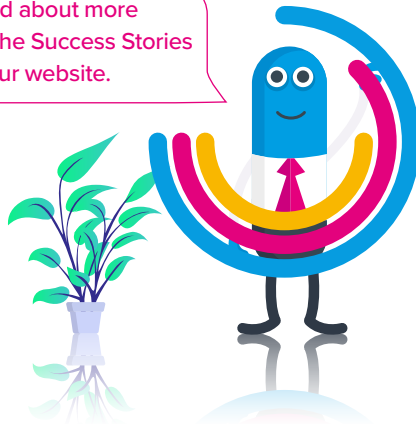

Results-focused versatility

We tailor the available technologies to best serve what you need instead of bending your requirements to fit the technology.

The impact of our learning platforms

We've built forward-thinking learning platforms for some of the world's leading companies. Ryanair, PWC, Transport for London, Suzuki and the National History Museum are just a few of the organisations that partnered with us to create learning with impact for their teams. Here are some of the results we've achieved with our customers.

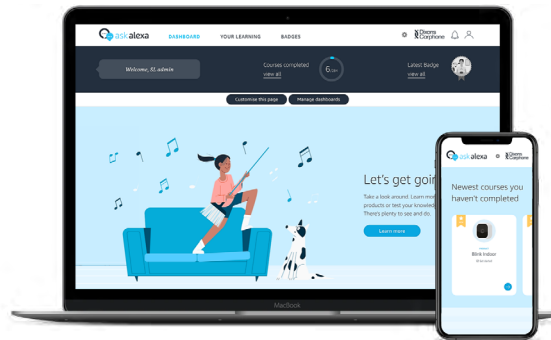

You can read about more projects in the Success Stories section of our website.

Amazon

We built a platform on which Amazon trains up to 300,000 retail staff to sell more of its products.
